

Building and Works Department

We focus to be recognized as delivering world class services that support facilities for world class research, teaching and learning”.

We strive to develop, maintain and manage the University estate in a safe, efficient and sustainable manner, ensuring the continued enhancement of our unique physical heritage and the provision of a world class research, teaching and learning environment. We aim to be an exemplary service department, delivering the highest quality services to our students, faculty, staff and residents, in line with the overall strategy of the University. We put our community at the heart of what we do.

Core Functions:

Design and Construction of new buildings, refurbishment of existing buildings, Repair and Maintenance of infrastructure and on-campus academic and residential buildings and 01 off campus hostel building. The department also provides services for furniture supply, installation and its repair and maintenance through a well-equipped workshop, space management, project planning, signage, and removals, relocations and event setups. Other responsibilities include the operation of a 24 hour emergency call out system to attend to plant failure and other emergencies affecting the operational performance of buildings.
